

Collects, processes, and feeds trusted data to your BI tools for proper resource management.

Benefits

- **Automated Statistics Feed to BI:** Utilize on-site collected attendance data for informed decision-making.
- **Resource Optimization:** Adjust class schedules, evaluate trainer performance, and rationally utilize your premises based on trusted analytics.
- **Seasonality Insights:** Understand and adapt to seasonal attendance trends.

*MMS – Members Management System.
The sync with the MMS Class Schedule Calendar requires a custom integration.

Privacy First: Adheres to BIPA, CPRA, and GDPR

- **NO FACE RECOGNITION:** Collects depersonalized facial vectors on-site along the self-check-in procedure for cross-comparison purposes
- Securely stores biometric data on-app/on-site only.
- Processes biometry on-prem into depersonalized statistics.
- Automatically deletes all attendee biometrics post-class.
